GAS SAFETY WEEK NEWS

GAS SAFETY WEEK NEWS

Walsall Training Centre are very active to promote Gas Safety Week, not only during the 8th – 14th September, but throughout the year. Gas Safety, and the current regulations are vitally important to current gas working operatives, and also the consumer / householder.

Some of the Training courses we offer engineers and non-engineers are detailed below:

CMDDA1 :

Carbon Monoxide/Dioxide Dwelling Atmosphere and is a Gas Safety (ACS) qualification that assesses a gas engineer's ability to use a portable electronic combustion analyser, to investigate and determine the levels of carbon monoxide (CO) and carbon dioxide (CO₂) within a domestic premise. This qualification is for engineers responding to reports of CO alarm activation, fumes, or smells, ensuring the atmosphere is safe by testing for combustion product leakage from Type A, B, and C domestic appliance

We have successfully trained and assessed over 70 Gas engineers for this qualification over the years, and working with all gas operatives within various companies, including:

- SANDWELL MBC
- WALSALL HOUSING GROUP
- TELFORD & WREKIN COUNCIL

IF YOU ARE INTERESTED IN UNDERTAKING THIS COURSE, OR WOULD LIKE FURTHER DETAILS PLEASE CONTACT STEVE EDIS

01922 612121

GAS SAFETY AWARENESS:

A gas safety awareness course provides non-technical personnel with essential knowledge about gas hazards, safety regulations, and emergency procedures, covering topics like carbon monoxide poisoning, appliance issues, and landlord requirements. These courses are valuable for various professionals, including those in private & social housing, call center staff, gas team planners etc. They offer a good level of non-technical awareness, enabling individuals to identify problems, understand their responsibilities, and know when to take action or refer to a qualified professional.

We have successfully delivered this course to over 100 candidates over the last 9 years. Candidates have come from a wide range of working environments, including social housing teams, private companies, letting and estate agents etc and is a great way to integrate CPD for your non-technical staff. Organisations we have worked with include:

- **BLACK COUNTRY HOUSING GROUP**
 - **MIDLAND HEART**
- **WATMOS COMMUNITY HOMES**
 - **HOMESERVE PLC**

**INTRODUCING OUR BRAND NEW
COMMERCIAL GAS TRAINING & ASSESSMENT CENTRE**

WALSALL TRAINING CENTRE ARE NOW OFFERING
COMMERCIAL GAS TRAINING AND ASSESSMENTS
MODULES AVAILABLE INCLUDE:

HEATING
COCN1 / CODNCO1 / CIGA1 / CORT1 / CDGA1 / TPCP1 / ICPN1

CATERING
CCCN1 / CODC1 / COMCAT 1 & 3

**walsalltraining
centre**

COMMERCIAL GAS ASSESSMENTS

We have now been running our Commercial Gas training and Assessments for over 5 years now. During this time, we have seen dozens of candidates complete the Commercial Changeover for either **HEATING** or **CATERING**.

All these modules are suitable for qualified Gas Safe Registered Engineers, and a great addition to enhance career or your earning potential.

Please get in touch if you are interested in any of the Commercial Assessments we run.

(Re Assessments also available)

21 YEARS COMMITTED TO GAS SAFETY

We are very proud here at Walsall Training Centre to be in our 21st year of running various gas safety training and assessment qualifications. The list of gas qualifications we offer continues to grow, year after year, and some of the other courses we offer are:

- **DOMESTIC ACS GAS ASSESSMENTS CCN1** (Re Assessment & Initial)
- **DOMESTIC GAS APPLIANCES** (Boilers, Cookers, Fires, Water Heaters, Meters, Warm Air)
- **LPG CHANGEOVER ASSESSMENTS** (Residential Park Homes, Permanent Dwellings, Caravans LAV)
 - **LPG MOBILE CATERING VEHICLES** (CMC)
 - **COMMERCIAL TESTING & PURGING** (TPCP1A)
- **DOMESTIC GAS DIPLOMA – MLP**. Designed for new entrants wanting to gain fully recognized qualifications and a route into the gas industry and attaining GAS SAFE registration for the first time.

Anyone who is interested in these assessments please contact **Steve Edis**, courses are attended subject to conditions.
