OCTOBER 2026

Changes to Industry Standards

From 1st October 2026 there are 2 big changes that have come into force for Gas Engineers and for Qualified Electricians.

It is mandatory now for all to comply with these new changes in legislation, and Walsall Training Centre are offering training and upskill to keep you up to date

- **IGEM/UP/1B Edition 4:**

The main changes in IGEN/UP/1B Edition 4 are that permissible pressure drops on a tightness test are determined by the Installation Volume (IV) rather than meter size alone, and that where there is any perceptible movement of the gauge this is not attributable to gas installation pipework.

More information can be found here

[https://registeredgasengineer.co.uk/technical/industry-standard-update-133/#:~:text=The%20main%20changes%20in%20IGEM%2FUP%2F1B,by%20the%20Installation%20Volume%20\(IV\)](https://registeredgasengineer.co.uk/technical/industry-standard-update-133/#:~:text=The%20main%20changes%20in%20IGEM%2FUP%2F1B,by%20the%20Installation%20Volume%20(IV))

We are offering FREE 1 day CPD upskill training sessions for registered gas engineers. Please call us for availability 01922 612121

- **18th Edition Amendment 4 (BS 7671:2018+A4:2026):**

Amendment 4:2026 introduces essential updates that reflect modern technologies including electrical energy storage, ICT systems and Power over Ethernet, ensuring installations meet today's technical and safety expectations.

"Fantastic training facility, and great hands-on practical experience, really enjoyed the course" Matt P

"Can't fault the content of this course and the set up at Walsall Training, relaxed and informative, would highly recommend" Jon R

"Trainer's knowledge was excellent and made sure we understood what was being taught, and explained things in simple terms" H Singh

"I have used Walsall Training for years, the F gas course was really well run, and good equipment for hands on practical" Pete D

Our F Gas (Air Con) Courses have been running at high speed for the last few weeks. All of our students have expressed great evaluation and feedback from this course. Due to very high demand, we are now taking course bookings for early 2027 (Jan Feb March)

If you are thinking about doing the F Gas course, get booked on quickly as spaces are limited

GAS TRAINING & ASSESSMENT

We have very limited places now for the remainder of 2026 for the following:

- Domestic ACS – CCN1 and Appliances
- Commercial ACS Changeover (Heating & Catering)
- LPG Changeover

THANK YOU !

Massive thank you to all who attended our recent GAS SAFE TRADE NIGHT, and help support Gas Safety Week. Everyone had a great night, with some really good toolbox talks, and product information available. Keep a look out for more trade night events in 2027 !
