

COMMERCIAL CHANGEOVER ASSESSMENTS (Heating)

Introduction:

The Nationally Accredited Certification Scheme for Individual Gas Fitting Operatives (ACS) is designed for individuals who already hold a recognised qualification, and will fall into one of the two categories below:

- **RE ASSESSMENT** – *Candidates whose existing qualification of competence (commercial) is due to expire or has expired within 6 months of the expiry date.*
- **INITIAL ASSESSMENT** – *Candidates who hold a current ACS CCN1 qualification and want to add commercial gas for the first time.*

The ACS assessment programme that we offer has been approved by the Gas Industry Standard Setting Body, Energy and Utility Skills, and is fully certificated by Cert-ain certification Ltd.

certification Ltd

Eligibility:

All candidates will need to hold the relevant qualifications / certificate of competence, and a copy of this must be provided to the training centre, prior to assessments taking place. If you have lost, or misplaced your certificate, please give us a call and we can help you in getting a replacement certificate.

Course Content:

We offer a full training and assessment package if required for all commercial core changeover and appliances. Duration of these may vary, according to how many elements you are undertaking. Please contact us for more information.

*Please note that training is not a prerequisite for assessment.

Training & Assessment Methods:

Candidates will be assessed by both practical, and theory with short written response and multiple-choice answers required, in accordance with the assessment criteria.

Additional training can also be given to individual candidates.

COMMERCIAL CHANGEOVER ASSESSMENTS (Heating)

Elements Available:

We offer the full commercial changeover suite of:

COCN1 (core commercial gas safety) **CODNCO1** (core changeover domestic to commercial), **ICPN1** (Commercial pipework installation), **TPCP1A** (Testing & Purging commercial pipework), **CIGA1** (Commercial indirect fired appliances), **CDGA1** (commercial direct fired appliances), **CORT1** (commercial overhead radiant tube and plaque heaters)

Achievements & Progression:

Upon successful completion of the ACS assessments, candidates will be able to register themselves, or their business, with the Gas Safe Register.

Progression routes are available to candidates once registered with Gas Safe, and can include the following:

- LPG Changeover (Domestic, Residential Park Homes, Caravans /Motorhomes /Boats)
- Commercial Gas Changeover (Catering)
- Boiler Fault Finding and Essential Electrics
